SST

Splash-Proof Scale

The SST Splash-Proof weighing scale use high precision resistor stain type sensor and It is equipped with a large easy to read dual side LED display.
Mainly for the need of waterproof weighing.

Specifications:

UP to1/6000~1/30000. internal resolution
Dual sides or single side pure RED LED display
With kg, gm, lb, & Oz units conversion
Pan size:180×215mm
Tare within full capacity, and pre-tare function
Large LED character height=26.5mm
Environment temperature 0° C ~ 50°C
Storage and transportation temperature -25° C ~ 55°C
warm up time 10~15 minuts
Rechargeable battery, 220V AC power supply

Capacity	Readability	Pan Size
15 kg	0.001 kg	180×215mm
